

Plan Provision Summary for 401(k) Plan Administrators

INSTRUCTIONS & NOTES

This plan provision summary is intended to be completed by you in coordination with your service provider team. You should edit the answers to the items listed to match your plan's provisions and add items you and your service provider team feel are important.

We recommend you provide every staff member who works on the plan with a copy of this summary along with a copy of the full plan document. They should use this summary for quick reference and the full plan document to answer detailed questions. Your service provider team may be willing to provide staff training so they fully understand how the plan works. The plan provisions listed in this summary are not intended to represent all of the items in the plan document that it may be necessary for staff members to know. Instead, they represent typical plan provisions that are often needed to answer basic questions, determine enrollment timing, and process loans and distributions. Keep in mind, whenever you update or amend the plan, this summary will need to be reviewed and possibly updated as well.
